

Election 2016: Ed Tech Questions to Ask Candidates

ACCESS

5 million U.S. students lack access to high speed internet access at home.

Do you support funding to ensure robust, high speed broadband for learning at school? How could we ensure that students from low-income families have access to broadband access at home?

FUNDING

Congress authorized \$1.65 billion for flexible education block grants, but the President only proposed \$500 million for the program in the budget.

Will you support increased funding to help teachers and administrators expand their understanding of how technology can transform education?

PERSONALIZATION

83% of U.S. education leaders say that individual engagement is a key element to student success.

We live in a world that is increasingly personalized as a result of technology. Will you support efforts to leverage technology and make learning more personalized for all students?
